**Subject:** RE: Draft Disposal Site Working List  
**Date:** 07/03/2008 11:31 AM

---

Eric,

EPA in their June 19th letter to Arkema, regarding the CDF evaluation, essentially sets the requirement that sediments subject to placement in a CDF be treated to RCRA Universal Treatment Standards (UTS). In order to achieve the UTS for DDX, EPA appears to be requiring thermal desorption (treatment) of sediment prior to placement in a CDF at Arkema. This has obvious implications for the feasibility of the Arkema CDF and for CDFs in general for Portland Harbor.

The attached LWG memo notes that the LWG will refine the revised "working list" to a smaller "representative list" of sites at the start of the FS process based on a clear and consistent set of criteria and submit that to EPA as part of the draft Alternatives Screening Summary Report submittal. I suggest that it would be helpful to both the LWG and EPA partners for EPA to clarify expectations for CDF sediment treatment before the LWG prepares the draft Alternatives Screening Summary Report.

Matt McClincy

Valerie - Please pass on to EPA, with a copy to LWG. Thanks.

Chip and Eric -

Please find attached a revise draft "working list" for disposal sites. The LWG proposes to use this list as a starting point for FS evaluations. Thanks.

Carl
